Customer Reviews

I took the test last weekend. This book is helpful and organize. However, the level of difficulty is different from the real IELTS test. I got Cambridge IELTS test and it was difficult. The reading passage was longer. The listening section used a lot of para rephrase speeches so it was difficult to follow, while you're also reading the question in your listening booklet. I recommend this book as a starter book, but buy other books like Cambridge book. The difficulty level of Barron's IELTS book is not enough to prepare for the real IELTS test which is far more difficult.

I've bought this book, because I'm preparing to take IELTS exam. as far as i had read. The book cover all the aspect of the exam (I hop so).

Extremely helpful practice tests. Very grateful for this book.
