easy to follow, easy to make recipes that i can even trust my kids to make when they get home from school. they know how to use a rice cooker and when they make dinner for me, well, i am a very pleased and happy mother. the kids love that they are helping me and i am happy that i don't have to cook. the best part is how few dishes i have to do at the end of the day

I believe I've made a mistake with the purchase of this cookbook. The rice cooker I have has none of the features of the one they have used - a shame really as some of these recipes sound really tasty.

Why not just use a crockpot?
