Customer Reviews

well well well! Who knew there were so much you could cook (beside rice) in a rice cooker! I really loved this book! I was laughing alone in the living room while going through the recipes as astonished I was to find some recipes I used to make using my oven. I tried a few, failed once and succeeded the second one! It was good! I'll keep trying others! great book!

Rice Cookers come in a multitude of sizes. Some rice cookers (like mine) are very simple with just on/off, while others may/may not be digital and have numerous settings. My rice cooker came with a measuring "cup", but that "cup" only holds 6 fluid ounces instead of the standard cup size of 8 fluid ounces. It is my understanding that this is also true for other rice cookers. This book does not include any information about any of the above, which has left me in a rather confused state. Do I attempt to make something in my small rice cooker and take a chance that it might spill over? Do these recipes presume some minimal functionality or will my simple one work okay? Do I use my rice cooker's cup or a regular measuring cup? Furthermore, it would be nice to know the weight for the "medium head of cabbage" in the "Meat Cabbage Casserole" (similar to what she did for the Napa cabbage in "Kimchi")..

It worth the time reading this cookbook.And here are some of the recipes that I like from this book.1. Tapioca Pudding2. Chicken Rice Dish3. Chinese Sausage & Rice4. Bacon & Onion Rice5. Mexican Rice6. Taco SoupDesserts1. Chocolate Cake2. Muffin Cake

OK book. Tried a few recipes but the layout of the recipes did not appeal to me.
