Customer Reviews

I wrote a review on this book but I mistaken it for a different book. I am rewriting this review to say that this deserves four stars. It has color illustrations. The photos are a bit dull in color but it is well written and easy to follow. It does provide inspiration and good ideas.

Christopher Schwarz, again shows his immerse knowledge of the craft. Many photos with detailed 'how to' sections make this copy a must for any wood workers library.

nice book with lots of projects to keep me busy. Well written and descriptions and drawings very helpful

There is so much you can find online about furniture. But I like having the book in hand while working on projects

Solid book on the noted styles. Good addition to a furniture maker's collection

Had good drawings and gave good instruction

Excellent projects for an A&C fan. Can wait to get time to get into the shop and make a couple.

Great book with lots of good tips
