As a "multiple cat" household we have many books around our home on cat health care, but this one is a "must buy" and a "must read" book to help you and your family prepare for an emergency with your cat friend. Not only is the text clear and understandable, there are also excellent drawings to help you implement what may be required to save your cat's life. Although we hope to never have to use what we've learned, as with first aid for humans, it's a nice skill to have, "just in case". If you have cats, please keep them indoors and spay and neuter your animals! It will help them live long, happy and safe lives!

I bought this in case of some major disaster where my family, cat included would have to leave our home for awhile. The book is very practical. Like your CPR / First trainings that you may have taken for work or school, it's nice to be aware and practice for every day emergencies for your small beasts :-)

It's in my group of cat vet books It will be good in case of an emergency, I'm sure of that
