I bought this cookbook as a little gift for my husband when I was on a business trip in Charleston, SC. The camouflage cover especially caught my eye since my husband is an avid hunter. He brings home all types of game, fish and fowl, and although I love to cook, I'm never quite sure how to prepare it. Much to my surprise, this little cookbook has become an excellent resource for us. The recipes are so simple, yet delicious, and use the most basic ingredients that most people already have in their cupboards. I highly recommend it!

I ordered this book because my grandson has found a real interest in hunting and knows you don't just hunt to kill, but to eat. Therefore, he kills and cleans and bring to Grandmaw to cook. There is no gourmet about it. It's just plain good cooking recipes for everyday families. I ordered it for my daughter too but she had already ordered it for herself. My grandson has dogeared many recipes he wants to try!

Not a bad book, wish it could have leaned more towards the Mexican side a bit, but this will work. Wife bought this book for me for Christmas. Could have more outdoor over the fire cooking methods. Wish it also had some roadkill type recipes, for survival reasons. How to cook up a coyote,

raccoon, skunk good enough so you'll eat it and like it. Would have like to have saw some more recipes on eating the parts of the animals that you normally wouldnt want to eat. But this will work, got me a pressure cooker and plenty of jars. Gonna have to look threw this cook book a few more times and decide what else i think i could put up to make this recipe book get even more use when America falls on its face. Thats the reason she bought it for me. From a survival stand point this book should come in pretty handy.
