This is the best cookbook yet. I tried using the recipies on other meats as well. Very tasty. My Pennsylvania family grew up on venison and this book makes it all taste even better. Highly suggest this for a hunter's wife. Bon Appetit!

We eat a lot of venison in our house, but I really only knew ten or so recipes that tasted good enough to serve the family. When you have a whole deer or two that is not enough recipes. The recipes in this book are varied and cover all different cuts of meat and cooking styles. I would highly recommend it.

As avid hunters, my husband and I are always looking for new and improved ways of eating Venison. This recipe book is simple and features awesome dishes. I can't wait to try them all! I recommend this title for any chef.

If anyone has ever cooked venison, you know that you can substitute venison for any beef recipe but the trick is to cook it slow. This book is a very simple cookbook with some great recipes and with

quite a variety of them. If you didn't have any other venison cookbooks this one would be all you would need.

Just what I was looking for! No matter how many times I tried to prepare venison, it never really tasted that good. I tried a few of these easy to follow recipes and was pleasantly surprised at how good they tasted. I highly recommend this book. Thank you Mr. Gregory!!!

Easy to follow directions for any skill of cook. Can easily use recipes with other meats. I give it a great big YUM!! Terrific addition to everyone's cookbook collection.

Very nice collection of recipes. I've tried several so far and have been pretty happy. One of the spicy chili recipes was great! For the \$2 I paid to get it downloaded to my phone, you can't go wrong.

So I tried this book out when I got some loin and minute steaks mmmmm good is what everyone thought about the recipes we tried. And the jersey was good also. I can't wait to try something else.
